

# LC. VALOR

(LC. HELEN WILMER, var. Signal Mountain x C. PALATINE, var. Winter Cheer)

WE HAVE FLOWERED MANY OF THIS CROSS AND ARE WELL PLEASED WITH THE QUALITY OF THE BLOOMS, 6-1/2" TO 7" IN SPREAD. PREDOMINANTLY DECEMBER AND JANUARY FLOWERING, THIS HYBRID IS HIGHLY DESIRABLE FOR THE PRODUCTION OF CUT FLOWERS AND IS AN EXCELLENT INVESTMENT FOR THOSE WISHING TO OBTAIN MATERIAL OF AWARD QUALITIES.

LC. Helen Wilmer, var. Signal  
Mountain, A.M., A.O.S.  
(Parent plant)

## LC. HELEN WILMER, var. Signal Mountain, A.M., A.O.S.

The ultra dark Helen Wilmer parent, of extremely heavy substance and excellent proportions, was honored by being granted an award of merit at the 1954 Miami International Orchid Show.

## C. PALATINE, var. Winter Cheer

This, the pollen parent, is an outstanding, highly productive December flowering hybrid of lovely form with overlapping sepals and petals of imperial purple and large, full lip of deep doge purple. Its petals measure 3-3/16" in width and 7-1/4" in natural spread.

4" to 5" POT SIZE - \$8.00 - \$10.00 - \$12.00 - \$14.00
